Acknowledgments

A Guide to the Control of Hazardous Energy (Lockout/Tagout) was prepared by N.C. Department of Labor employee Michael R. Smith, including material from the U.S. department of Labor, Occupational Safety and Health Administration and the U. S. Department of Health and Human Services (NIOSH). The information in this guide was reviewed in 2009.

This guide is intended to be consistent with all existing OSHA standards; therefore, if an area is considered by the reader to be inconsistent with a standard, then the OSHA standard should be followed.

To obtain additional copies of this guide, or if you have questions about North Carolina occupational safety and health standards or rules, please contact:
